## Mallard Pass Solar Farm

### Works Plans

**November 2022**

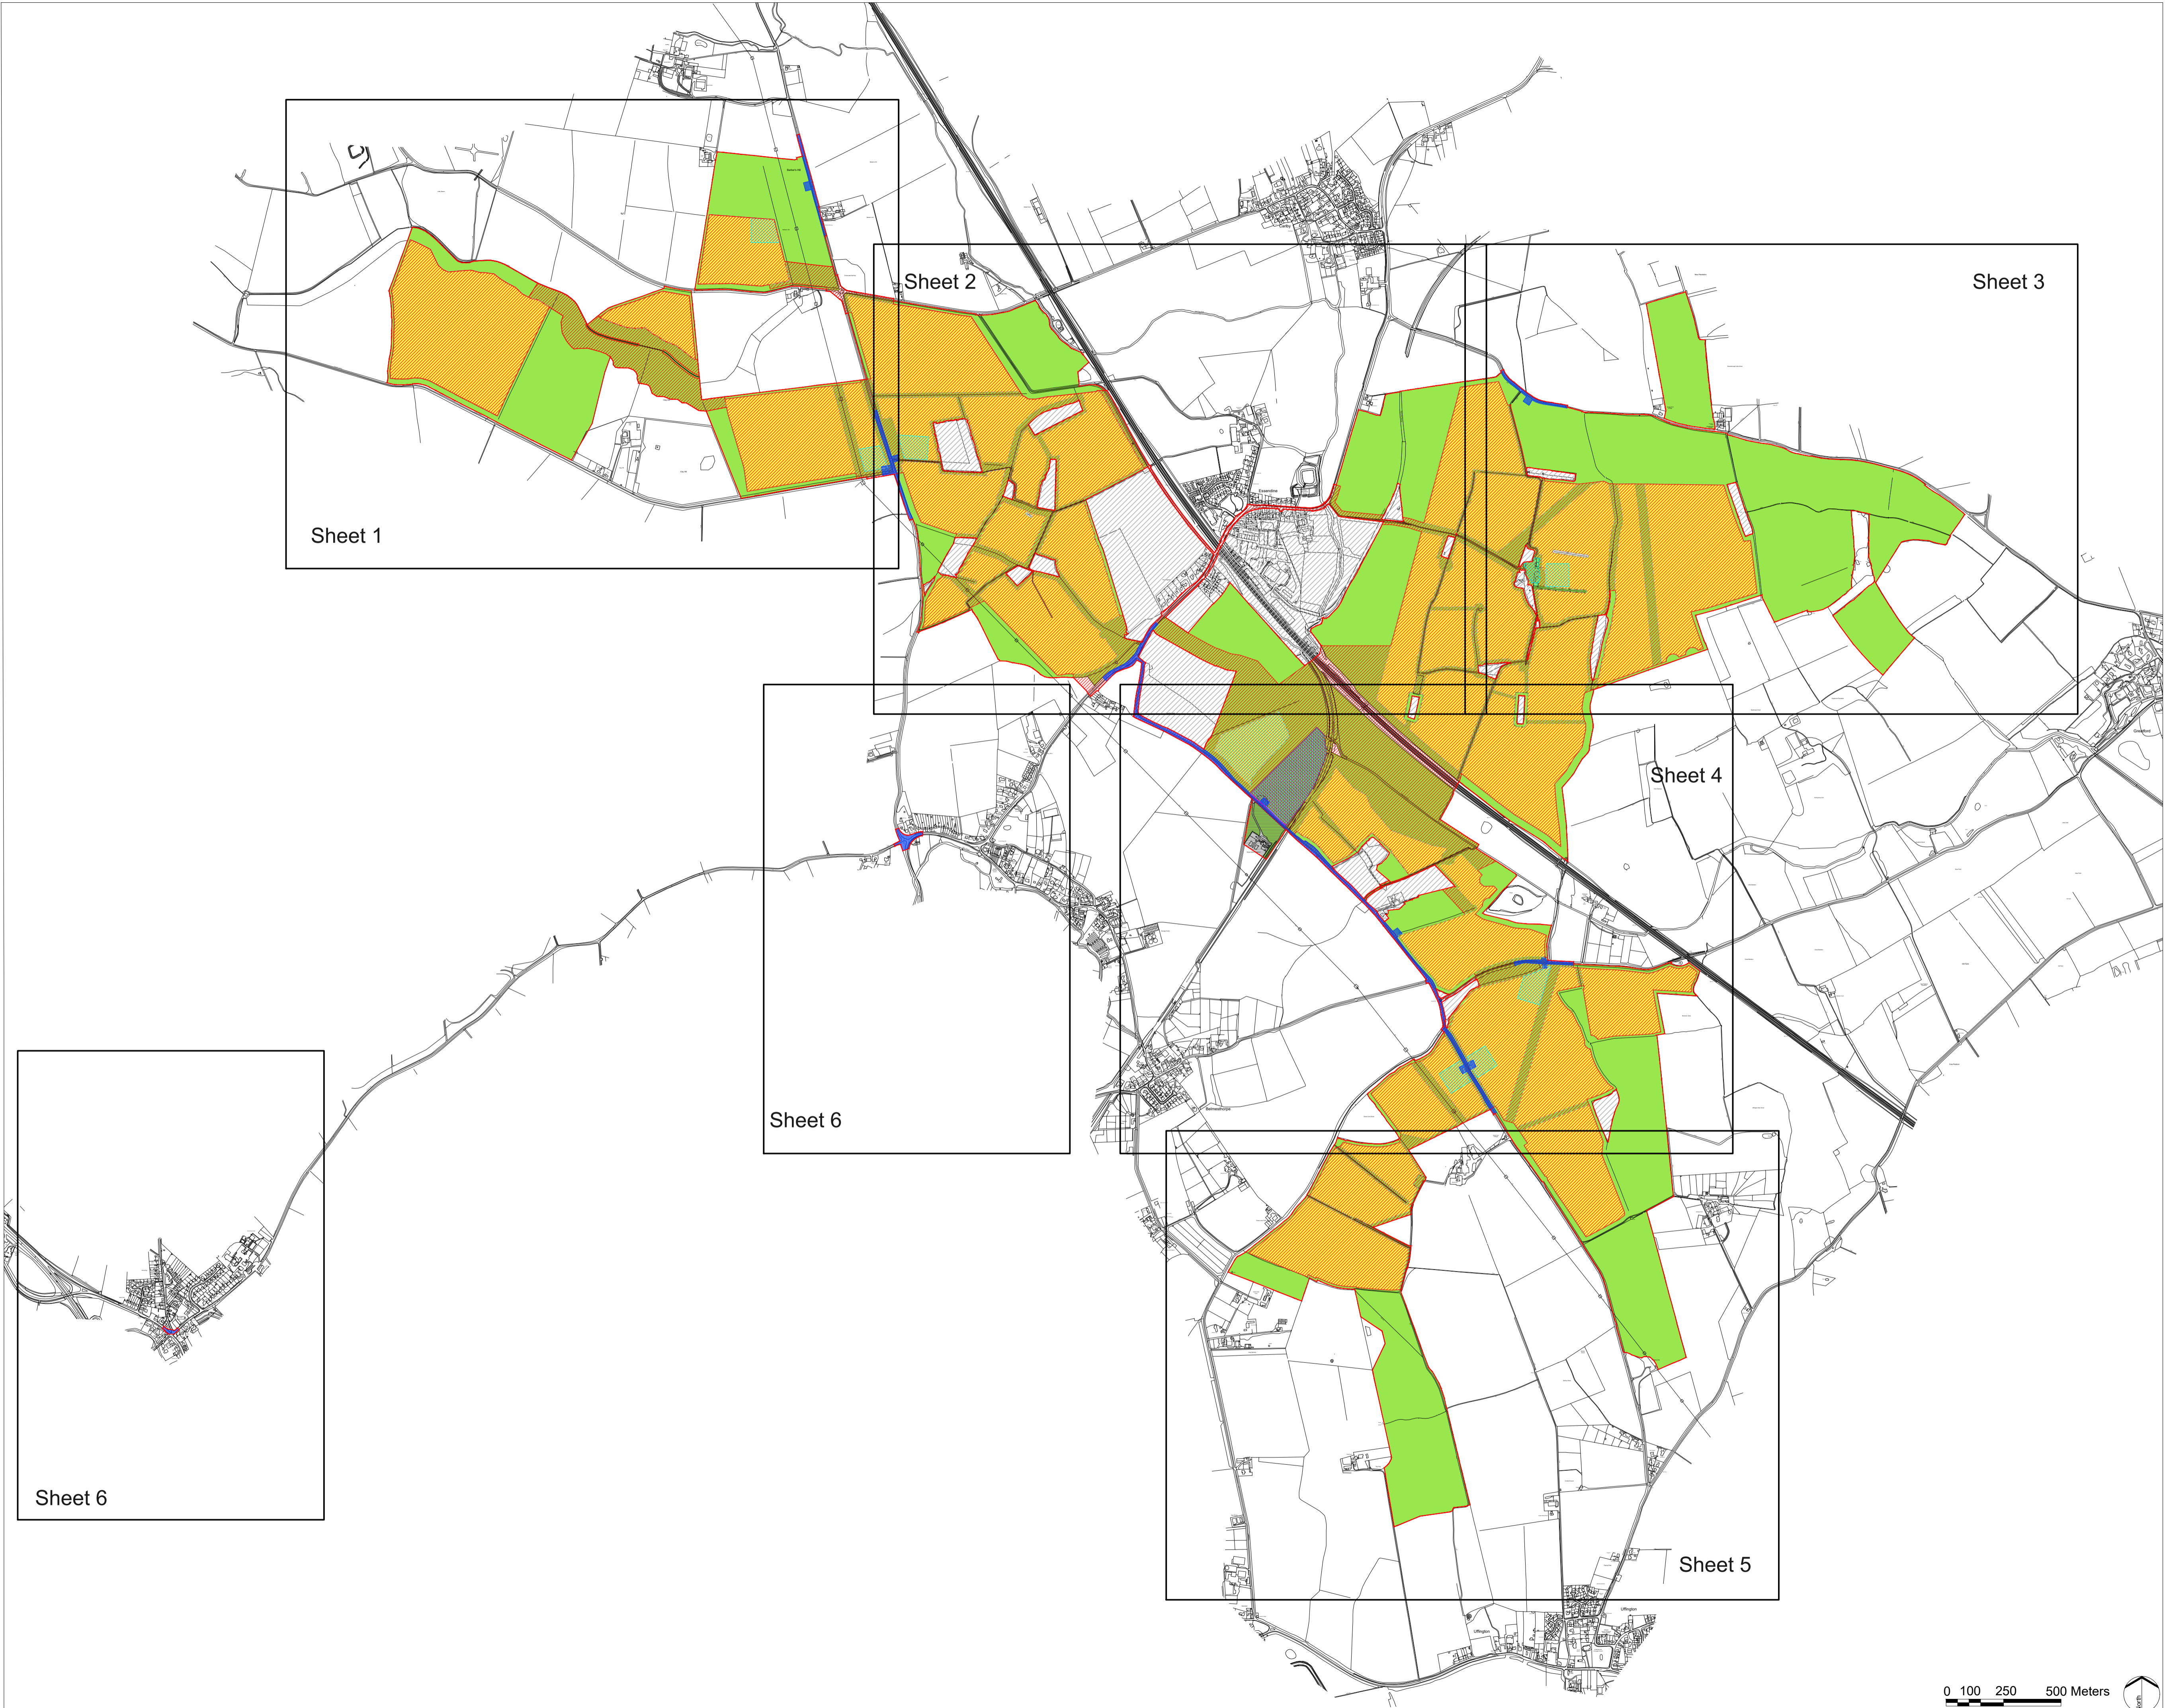

PINS Ref: EN010127

Document Ref: EN010127/APP/2.2

Revision P0

Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009

Reg 5 (2) (j)

**LEGEND**

Order limits  
Areas outside of Order limits

**Limits of Deviation Legend**

Work No. 1  
Work No. 2  
Work No. 3  
Work No. 4  
Work No. 5  
Work No. 6  
Work No. 7

- Notes:**
1. These works show the Limits of Deviation for the number works comprised in the authorised development, which are described in Schedule 1 (Authorised Development) to the draft Development Consent Order. The Works Plans should be read in conjunction with the draft Development Consent Order and other plans and documents to be certified by it, in particular the Design Guidance, Parameters and the Outline Landscape and Ecological Management Plan.
  2. The Limits of Deviation for each Work No. has been drawn to the Land Registry boundaries, or where it is available and differs from those boundaries, topographical survey data. The accuracy of these information sources differs from OS Base Mapping, which results in the Limits of Deviation and/or the Order limits not aligning with the line work shown on the OS Base Mapping set out on these plans.
  3. These plans show some works taking place in combination with each other on the same area of land. Within the combined Limits of Deviation for these works the Applicant seeks authorisation for any combination of those Work Nos. shown within that Limit of Deviation (including on insets).
  4. The Limits of Deviation for Work No. 5 (temporary construction laydown area) are shown in combination with other numbered works. This signifies that the Applicant seeks authorisation to construct the other Work Nos. indicated within that combined Limit of Deviation (or as shown in inset) once the temporary construction laydown area comprised in Work No. 5 is no longer required.

- Work No. 6
- Work No. 7

- Notes**
1. These works show the Limits of Deviation for the number works comprised in the authorised development, which are described in Schedule 1 (Authorised Development) to the draft Development Consent Order. The Works Plans should be read in conjunction with the draft Development Consent Order and other plans and documents to be certified by it, in particular the Design Outline, Parameters and the Outline Landscape and Ecological Management Plan.
  2. The Limits of Deviation for each Work No. has been drawn to the Land Registry boundaries, or where it is available and differs from those boundaries, topographical survey data. The accuracy of these information sources differs from OS Base Mapping, which results in the Limits of Deviation and/or the Order limits not aligning with the line work shown on the OS Base Mapping set out on these plans.
  3. These plans show some works taking place in combination with each other on the same area of land. Within the combined Limits of Deviation for these works the Applicant seeks authorisation for any combination of these Work Nos. shown within that Limit of Deviation (including on insets).
  4. The Limits of Deviation for Work No. 5 (temporary construction laydown areas) are shown in combination with other numbered areas. This signifies that the Applicant seeks authorisation to construct the other Work Nos. indicated within that combined Limit of Deviation (or as shown in detail on the temporary construction laydown area comprised in Work No. 5 is no longer required).

- Notes:**
1. These works show the Limits of Deviation for the number works comprised in the authorised development, which are described in Schedule 1 (Authorised Development) to the draft Development Consent Order. The Works Plans should be read in conjunction with the draft Development Consent Order and other plans and documents to be certified by it, in particular the Design Outline, Parameters and the Outline Landscape and Ecological Management Plan.
  2. The Limits of Deviation for each Work No. has been drawn to the Land Registry boundaries, or where it is available and differs from those boundaries, topographical survey data. The accuracy of these information should be checked by the OS Base Mapping, which results in the Limits of Deviation and/or the Order limits not always aligning with the work shown on the OS Base Mapping set out on these plans. The Applicant confirms that it does not intend to utilise DCO powers over any part of residential properties in Essendine.
  3. These plans show some works taking place in combination with each other on the same area of land. Within the combined Limits of Deviation for these works the Applicant seeks authorisation for any combination of those Work Nos. shown within that Limit of Deviation (including on plans).
  4. The Limits of Deviation for Work No. 5 (temporary construction laydown area) are shown in combination with other numbered works. This signifies that the Applicant seeks authorisation to conduct the other Work Nos. indicated within that combined Limit of Deviation (or as shown in plans) once the temporary construction laydown area comprised in Work No. 5 is no longer required.
